

BROWNING SABRE
40 CHANNEL MODIFICATION

- (1) Looking down into the right hand corner of the unit on the channel selector board, locate and solder the two jumper wires as shown.
- (2) The unit can now be used on all of the 40 channels with the frequencies and channel readout corresponding correctly.

JUMPERS

EXTENDED FREQUENCY COVERAGE

- (1) Locate the terminals on the main board as shown.
- (2) Solder two pieces of hookup wire to the first and seventh terminal on the main board as also shown.
- (3) Mount a SPST switch on the rear panel and solder the two wires to the switch.
- (4) The unit will now work on all 40 channels, and with the switch in the on position, will extend upward more than 50 channels.

NOTE: This modification will not extend the channel readout but will not affect the units operation.
