

\$ \$ MONEY - MAKER \$ \$

I saw this very nice little item in North Dakota CB shop in December while on a hunting trip. Owner has it set up for quarters (25¢). Object is to drop a quarter in jar and have it land on the dowel.

The "Coffee Kitty" in this case happens to be a new-in-box President Grant... Owner said he made 372 dollars over retail on the last unit.. Business picked up by over 100%, and the local bank has had to come to him more than once for quarters! To play it cool with the locals; sponsors 1 boy's baseball team, and girl's softball team; and does the local PD's radio work for parts.. Never could get out of him just how much he is making off the jug! I wouldn't tell either...\$ \$ \$ \$
