

## EXPORTS

MIDLAND 2001 (EXPORT), 120 channel-AM Only! Freq Range: 26.515-27.855MHz.  
Power Specs - 5W, Schematic shows 3 different finals;  
(2SC1306, 2SC2078, 2SC495) Change if 2SC495 in unit!  
\*See write-up this volume.

---

PACIFIC SSB 800, 80 Channel-AM/SSB; Freq Range: 26.965-27.855MHz.  
Power Specs: 4W-AM, 12W-SSB.. El Cheapo Final AGAIN!  
Shows some class with built-in SWR meter, then blows it  
with RF Gain switch? PLL chip is one good thing - as  
is MC145106, and modifiable without playing with Xtals.  
2-bands are achieved by Xtal switching. Slide Mod in  
Vol. 18... \*See write-up this volume..

---

MAJOR M-120, 120 Channel-AM/FM; Freq Range: 26.965-28.305MHz.  
'Dream Boat' - Basic old HyGain 02A 2-crystal AM Chassis!  
Crystal switching for extra channels, 2SC1306 Final, and  
is now relay switching. \*See write-up this volume.

---

GRANT-DX, 120 Ch. AM/FM/SSB; Freq Range: 26.515-27.855MHz.  
POWER is the word on this unit - 10W in both AM and FM; 20W +  
in SSB. Roger Beep switch, NO SWR METER???, Finned Heat Sink  
for RF Power Xstrs, and 'Slider' Kit furnished with instructions.  
\*See write-up this volume..

---

TRISTAR 727, 120 Channel-AM/FM; Freq Range: 26.965-28.305MHz.  
Major feature on this particular unit is the 3-way RF Power  
Switch. 'No Frills Unit' - just necessary controls.

---

MARKO CB-444, 120 Channel-AM/FM; Freq Range: 26.965-28.305MHz.  
'Deluxe unit'; RF Gain, NB/ANL, CB/PA, and SWR Meter.  
\*See write-up this volume..

---

JACKSON, 226 Channel-AM/FM/SSB; Freq Range: 26.065-28.315MHz.  
POWER SPECS: AM/FM-10W, SSB-21W. Roger Beep switch, NO SWR METER??  
10KHz jump switch, Coarse/Fine 'Slide'. MRF477-Final, 2SC2166-Driver,  
MC145106-PLL (2 useless switches on unit-3 if you count the PA.)  
This is the unit that everyone has been waiting for, wouldn't be  
surprised to see GONE by the time this volume comes out.

---

SUPERSTAR 360FM, 120 Channel-AM/FM/SSB/CW; Freq Range: 26.515-27.855MHz.  
This particular unit is identical to the Cobra 148GTL-DX,  
Late Version! Use all of that data for service/modification.  
CAUTION: 2 versions of this unit exist; see Vol. 18, page  
12; for specs on the other.

---

SUPERSTAR 95, 120 Channel-AM Only.; Freq Range: 26.515-27.855MHz.  
Almost Identical to the Tristar 727 (No FM, and different Fo Rng.)  
"read the manual carefully" - doesn't put out 15W as the front  
indication says! \*See write-up this volume..

---

"Export Roundup", was up to date (for all received information) as of  
May 20, '84. If any left out, send the Owner's Manual.....
