

*This year we are celebrating our 10th ANNIVERSARY in business and 24th VOLUME of "SECRET CB".*

*We truly appreciate the confidence you have placed in us. As it is the loyalty of our customers that enables us to succeed.*

*The "SECRET CB" is our PRIDE and JOY. We are happy that so many of our customers have contributed vital information so important to the publishing of this book. We encourage all of you to send in comments, suggestions, and requests for the upcoming volumes. We may not be able to fulfill all your wishes but we will surely try. It helps us to know what is needed.*

*It has been brought to our attention that most of the radios with uPD2824 chip will need a 'SUPER DIODE' for full frequency expansion when using the Kit #106. VCO varactor must be replaced with a 'SUPER DIODE' in some units.*

*We have been receiving very good reports on the ANTRON "99" base station antenna. Article on page 14.*

*We are looking forward to another 10 years!*

THE SECRET CB GANG

PS: *I am truly grateful to all the readers and contributors who have made this 10th anniversary worth celebrating.*

THANK YOU!

*Aris Selman*
